SEA welcomes the Deputy Leader of the House of Commons

SEA's Managing Director Paul Phillips recently welcomed David Heath CBE, Deputy Leader of the House of Commons, to its Beckington headquarters. David is the local MP for Somerton and Frome and SEA's Beckington offices are located within his constituency.

David officially opened the New Technology Centre at the Beckington site in 2000. During the tour Paul described how SEA had diversified in those 10 years from a private systems engineering company, to a world-class supplier of high-integrity equipment in the defence, aero-space and transport markets.

David was shown SEA's latest developments in its submarine, surface ships, satellites, helicopters and road vehicle technology.
